Subjects

Adapted Physical Education
Effects of in changing attitudes among university students, *Fall 2000*, p. 52.

Aerobic Fitness
Use of multi-stage step test to estimate, *Fall 2000*, p. 67.

Alzheimer's Disease
Testing patients' reality orientation and cognitive skills using a clock test, *Summer 2000*, p. 44.

Assessment
Using a clock test for patients with Alzheimer's Disease, *Summer 2000*, p. 44.

Attitudes
Effects of an adapted physical education course in changing, *Fall 2000*, p. 52.

Athletic Injury
Effects of prescribed foot orthoses on medial tibial stress syndrome in collegiate cross-country runners, *Winter 2000*, p. 76.

Bone Mineral Density
Effects of dynamic weight bearing on, in children with neuromuscular impairment, *Spring 2000*, p. 13.
Effects from physical activity, *Summer 2000*, p. 28.

Calcaneus
Use of, in active ankle plantar flexion assessment, *Spring 2000*, p. 19.

Cardiovascular Fitness
Use of multi-stage step test protocol to detect threshold markers of cardiovascular disease, *Fall 2000*, p. 67.

Cardiovascular Activity Performance
Influence of continuous musical tempo on cardiovascular performance of a walk/jog activity for adolescents with mental retardation, *Winter 2000*, p. 81.

Chair Rise
Effects of strength training on vertical force in elderly, *Summer 2000*, p. 36.

Children
Effects of dynamic weight bearing on bone mineral density in those with neuromuscular impairment, *Spring 2000*, p. 13.

Clock Test
Determining interrater reliabiity and scale intercorrelations of, for Alzheimer patient assessment, *Summer 2000*, p. 44.

Cognitive Skills
Testing of, in patients with Alzheimer's Disease, *Summer 2000*, p. 44.

Contact Theory
Use of, to understand and explain attitudes of individuals without disabilities toward peers with disabilities, *Fall 2000*, p. 59.

Deconditioning
Effect of, on multi-stage step test protocol for people with low exercise capacity, *Fall 2000*, p. 67.

Dementia
Testing patients' reality orientation and cognitive skills using a clock test, *Summer 2000*, p. 44.

Disabilities
Effects of an adapted physical education course in changing attitudes towards, *Fall 2000*, p. 52.
Student attitudes towards peers with disabilities, *Fall 2000*, p. 59.

Elderly
Effects of strength training on vertical force of a chair rise, *Summer 2000*, p. 36.

Exercise Rehabilitation
Suitability of graded step test protocol in testing for, *Fall 2000*, p. 67.

Fibula
Use of, in active ankle plantar flexion assessment, *Spring 2000*, p. 19.

Fifth Metatarsal
Use of, in active ankle plantar flexion assessment, *Spring 2000*, p. 19.

Force Platform
Use of, to measure vertical force of chair rise in elderly, *Summer 2000*, p. 36.

Force-Time Curve
Measure of vertical force of chair rise in elderly, *Summer 2000*, p. 36.

Gait Analysis
Use of, in evaluation of an existing and a new technique for the normalization of ground reaction forces,*Winter 2000*, p. 90.

Goniometer
use of, in active ankle plantar flexion assessment, *Spring 2000*, p. 19.

Ground Reaction (Forces)
Evaluation of an existing and a new technique for the normalization of, *Winter 2000*, p. 90.

Height-adjusted step test
Use of, to develop a step test protocol that accounts for differences in stature, *Fall 2000*, p. 67.

Higher Education
Effects of an adapted physical education course in changing attitudes of university students toward teaching learners with disabilities, *Fall 2000*, p. 52.

Hydrostatic
Use of, in evaluation of an existing and a new technique for the normalization of ground reaction forces: total body weight versus lean body weight, *Winter 2000*, p. 90.

Inclusion
Effects on attitudes, experiences, and perspectives of secondary students without disabilites, *Fall 2000*, p. 59.

Instantaneous Center of Rotation (ICR)
Determining pathway of, with videographic methods, *Spring 2000*, p. 4.

Jogging
Influence of continuous musical tempo on, for adolescents with mental retardation, *Winter 2000*, p. 81.

Use of, in evaluation of an existing and a new technique for the normalization of ground reaction forces: total body weight versus lean body weight, *Winter 2000*, p. 90.

Kinesiotherapy
Implications of clock-test reliability on treatment plans for patients with Alzheimer's Disease, *Summer 2000*, p. 44.

Knee Joint
Evaluation of PICR in, using two videographic methods, *Spring 2000*, p. 4.

Lean (weight)
Evaluation of an existing and a new technique for the normalization of ground reaction forces: total body weight versus lean body weight, *Winter 2000*, p. 90.

Major Students
Effects of an adapted physical education course in changing attitudes among physical education majors, *Fall 2000*, p. 52

Medial Tibial Stress Syndrome
Effects of prescribed foot orthoses on, in collegiate cross-country runners, *Winter 2000*, p. 76.

Moderate Mental Retardation
Cardiovascular performance of a walk/jog activity for adolescents with, *Winter 2000*, p. 81.

Moderately Intensive Exercise
Effects on force of chair rise in elderly. *Summer 2000*, p. 36.

Musical Tempo
Influence of, on cardiovascular performance of a walk/jog activity for adolescents with mental retardation, *Winter 2000*, p. 81.

Normalization
Use of total body weight versus lean body weight for evaluation of ground reaction forces, *Winter 2000*, p. 90.

Osteoporosis
Prevention in children with neuromuscular impairment, *Spring 2000*, p. 13.

Overuse
Effects of, on medial tibial stress syndrome in collegiate cross-country runners, *Winter 2000*, p. 76.

Pain
Effects of prescribed foot orthoses on medial tibial stress syndrome in collegiate cross-country runners,*Winter 2000*, p. 76.

Physical Activity
Effects on bone mineral density in children with

neuromuscular impairment, *Spring 2000*, p. 13.
Effects on bone mineral density, *Summer 2000*, p. 28.

Physical Training
Effects on bone mineral density, *Summer 2000*, p. 28.

Plantar Flexion
Reliable assessment of, *Spring 2000*, p. 19.

Prescribed Foot Orthoses
Effects of, on medial tibial stress syndrome in collegiate cross-country runners, *Winter 2000*, p. 76.

Professional Preparation
Effects of, in changing attitudes of university students preparing to teach physical education, *Fall 2000*, p. 52.

Reality Orientation
Testing of, in patients with Alzheimer's Disease, *Summer 2000*, p. 44.

Recreational Therapy
Implications of clock-test reliability analysis on treatment plans for patients with Alzheimer's Disease, *Summer 2000*, p. 44.

Running
Effects of on medial tibial stress syndrome in collegiate cross-country runners, *Winter 2000*, p. 76.

Skinfolds
Use of, in evaluation of an existing and a new technique for the normalization of ground reaction forces, *Winter 2000*, p. 90.

Strength Training
Effects on vertical force of chair rise in elderly, *Summer 2000*, p. 36.

Stretching
Effects on vertical force of a chair rise in elderly, *Summer 2000*, p. 36.

Students Without Disabilities
Attitudes, experiences, and perspectives on their peers with disabilities, *Fall 2000*, p. 59.

Video Analysis
Reliability of two methods of to obtain knee PICR, *Spring 2000*, p. 4.

Walking
Use of, in evaluation of an existing and a new technique for the normalization of ground reaction forces, *Winter 2000*, p. 90.

Weight Bearing
Effect of, on lower extremity bone mineral density in children with neuromuscular impairment, *Spring 2000*, p. 13.
